

The Mystery of the Girdled Trees! **September 19, 2020**

A neighboring town harbors this mystery, as well as a lovely view west to the Monadnocks. An easy woodsy walk and a gentle climb to a grand panorama.

Due to Covid-19 restrictions, we will not carpool. You **must** register with the library (654-2581 or wiltonlibrarynh@gmail.com) to receive directions to the trailhead. The group is limited to 8 walkers (plus guides); if there is sufficient interest a second hike will be scheduled. Please bring a mask to wear if we meet other hikers or gather close together; also carry water and bug spray.

All hikes are conditions permitting and at your own risk. Suggested reading: *The Hidden Life of Trees* by Peter Wohlleben.
